

TITLE: **Enrichment Teacher**

JOB DESCRIPTION:

The Narragansett enrichment teachers are under the direct supervision of the school principal. He/she will have a schedule that includes direct instruction to students, facilitation of the enrichment program, and coaching of grade level and content area teachers. He/she is considered a member of the unified arts department.

MINIMUM QUALIFICATIONS:

- Appropriate certification for the grade levels assigned with additional training in enrichment and differentiation practices;
- Skilled in the use of instructional technology in the classroom and ability to use instructional technology to individualize and enrich instruction;
- Capacity to establish new school wide programs, including but not limited to computer science, robotics, and the arts.
- Thoroughly familiar with the philosophy of the School-wide Enrichment Model (Joseph S. Renzulli and Sally M. Reis);
- Classroom teaching experience;
- Understanding of professional learning strategies and ability to apply these strategies to work effectively with peers

DUTIES AND RESPONSIBILITIES:

- Work with teachers to design learning experiences that enrich and individualize the curriculum for all learners.
- Analyze assessment data to determine eligibility for specialized enrichment programs;
- Work with teachers to compact curriculum and design learning experiences which are connected to the curriculum and can be taught concurrently for learners who are exceeding grade level expectations;
- Instruct school-wide programs which enrich the learning experiences of all students in specialized content areas.
- Together with building administrators, schedule time to work directly with the students that have exceeded grade level expectations;
- Design and deliver effective enrichment opportunities for the students that have exceeded grade level expectations;
- Provide for on-going evaluation of the school enrichment program and make modifications as needed;
- Interpret the school's enrichment program for staff, parents, and members of the community.
- Consult with administrators at the school site to implement the components of the School-wide Enrichment Model that will serve as a blueprint for total school improvement.
- Collaborate with enrichment teachers throughout the district to continue to develop an effective enrichment model for Narragansett.
